Choice Filling tips

- Prior to filling in your choices, chalk out your priorities.
- Candidates should be more careful while selecting the four-year and/or five-year course.
- Explore the past year's cut-off ranks and make a list of choices which might help you get a seat during the first round of the counselling process.
- One should also check the life on campus, culture and location of the institute prior to filling in their choices.
- You can also fill choices as per your Branch priority
- Work on the mock seat allocation, which displays the choices filled in by the candidates.
- Never lock your choices on the very first day, because your priorities might keep changing the more you explore.
- We suggest you lock your choices only 24 hours before the deadline and avoid the last-minute rush.
